<b>Brow Tint</b>	\$20	\$15	

### Pre Waxing Preparation

- Length of hair must to be at least ¼ inch long.
- No shaving for at least 2-3 weeks.
- It is recommended to take a hot shower before your waxing appointment.
- Don’t use any lotions or creams in the area to be waxed.
- A pain reliever/anti-inflammatory can be taken 30 minutes prior to your appointment.
- Let us know if you have been on any skin medications that could affect your waxing service. These include acne medications such as Accutane, Alpha or Beta Hydroxy Acids, Antibiotics, Benzoyl Peroxide, Differin, Retin-A/Retinol or any other skin thinning medication.
- Reduce intake of wine the night before and caffeine the day of your appointment as it can stimulate the nervous system, making you more sensitive to waxing.
- Avoid spray tanning, sun bathing, and tanning bed within 24 hours of waxing, before or after.
- Waxing & Your Period: Please consider your menstrual cycle when reserving your appointment. While it is no problem to wax you during your time of the month provided you wear a tampon, the reality is hormonal fluctuations may cause increased sensitivity. If you think you will not be comfortable enough to handle the service, we advise you to schedule your bikini wax for when your cycle has concluded. Note that Verdant does not recognize getting your period as a valid reason for last-minute cancellations or rescheduling. Penalties will be applied if you cancel or reschedule within 24 hours of your scheduled service.

### Post Waxing Care

- Avoid exercise, hot bath/shower, sauna, steam, hot tub, pools and beaches 24 hours after waxing. Sweating can carry bacteria into the pores and can irritate the skin after waxing.
- Keep hands from touching freshly waxed skin, minimizing chances of getting irritations or small pimples.
- Use Vaseline, aloe vera gel or lotion, antibiotic ointment or hydrocortisone cream if necessary.
- Cold shower is the best after waxing. Avoid saunas, steam rooms, whirlpools and other heated sources for at least 48 hours.
- Daily exfoliation is recommended to prevent in-grown hairs. You can use gloves or facial scrubs to exfoliate the skin 48 hours after waxing.
- Avoid tight clothing after waxing, especially in the waxed areas. Tight clothing may result in irritation and ingrown hairs.
- Avoid the sun immediately after waxing and please wear sun screen; recently waxed areas are prone to hyperpigmentation (permanent darkening of the skin) if exposed to the sun.

### Limitations

- Stay Smooth Savings apply only with regular appointments at Verdant EcoSpa. Missed appointments will result in price increases.
- Discounts cannot be combined with any other discounts or promotional offers.
- Waxing services cannot be performed on clients taking Acutane, Retin-A, or similar prescriptions due to the sensitivity of the skin.
- Clients who purchase and schedule series services and cancel or no-show within 24 hours of the scheduled service will forfeit the service scheduled, not to be reclaimed.
- All services must be reserved with a valid credit or debit card to hold your appointment time.
