

DELUXE FACIALS

Anti-aging Restorative Seaweed Facial \$140 (VIP Members: \$105)

Suitable for all skin types, though particularly beneficial for mature or dehydrated skin, this rejuvenating treatment combines anti-oxidant algae complexes, pro-collagen organic extracts and a restorative blend of organic ingredients to reduce the appearance of fine lines and wrinkles. A spa essential, this service uses hand-harvested seaweed strips to enrich and plump the skin with deeply hydrating nutrients. It concludes with a relaxing scalp massage, so you leave with nothing short of a radiant glow.

Crème de la Crème French Apothecary Facial \$170 (VIP Members: \$105)

This fully holistic, bespoke treatment embraces a Parisian skincare esthetic insofar as it employs a non-invasive albeit cutting edge, anti-aging cocktail of organic plants, wildflowers, vitamins and minerals coupled with advanced massage techniques tailored to cater to and pamper the express needs and moods of your particular skin and its individual concerns. The treatment uses shiatsu to balance energies and Japanese lymphatic drainage in place of extractions to remove toxins, boost fluid circulation and diminish cellular oxidation as a means to restoring and preserving the natural ecosystem of your dermis, shoring up its long-term vibrancy.

Osmosis Medi Facial \$105 (VIP Members: \$78)

This treatment delivers nutrients to the skin to improve the signs of environmental damage from sun, pollution, and stress. It is good for all skin types and is customizable to address myriad skin concerns. Pigment-correcting boosters, powerful Vitamins A and C, help to re-establish the look of clarity and firmness and help guard against further damage. Skin appears brighter, smoother, and a more youthful radiance is revealed. Like no facial you've ever experienced. This facial will leave your skin glowing for weeks.

Osmosis Medi-Infusion Facial \$130

Combines the power of the Osmosis Medi-Facial with the most effective and first non-acid dermal peeling treatment. Osmosis facial infusions use the most potent form of vitamin A to accelerate fibroblast activity and collagen production without causing any of the inflammatory trauma or downtime that usually accompanies conventional med-spa chemical peels. The potent treatment gently resurfaces the skin, "infuses" it with vitamins and nutrients to accelerate cellular turnover, and boosts collagen production for 30 days following the treatment. This treatment is safe for every skin type and condition and is fully customized for individual needs.

CUSTOM CORRECTIVE FACIAL PEELS (60 minutes, \$120/face or \$170/face + neck & décolleté)

The dermis thins at a rate of about 1-1.5% a year from age 20. It does this as a result of exposure to the sun, poor nutrition and stress, which feeds inflammation. These factors will inevitably slow the epidermal cell turnover rate. To keep the skin healthy and looking its best, we need to make certain we first do everything we can to nourish it with a healthy lifestyle and preserve it with a dedicated, consistent skin-care regimen. Beyond that, steps can also be taken to help skin cells stay on a positive rejuvenation cycle. Peels can be a helpful resource to aid the growth process if utilized in moderation. (Note that too frequent of use of peels or not using them in conjunction with a dedicated skincare routine and a healthy lifestyle will actually drive a deleterious effect, as such factors may actually accelerate inflammation that ages the skin.) If you feel that you are doing all you can to preserve your skin's health through diet, lifestyle and a dedicated skin care routine and yet still feel that your skin cell growth may benefit from a bit of a boost, a peel or a regimen of peels may prove a nice enhancement to your program. At Verdant we offer three types of peels: enzymatic driven as well as those powered by Lactic Acid and Glycolic Acid. Your knowledgeable esthetician will assess your skin and recommend a peel regimen to target the skin condition you are looking to improve and, as well, consider your lifestyle requirements and the amount of downtime needed to assure the success of the treatment(s). Peels require previous facial treatments with us, the purchase of a post-peel kit, a solid commitment to good home care and daily use of physical sunblock. While you will see some results from one peel, a series of 3-6 is recommended.

FACIAL REJUVENATION ACUPUNCTURE

Facial rejuvenation acupuncture is a non-surgical technique used to reduce the signs of aging and to bring a state of inner health and beauty to the surface. It works by improving the circulation of blood and qi (vital energy) and can help erase 5-15 years from the face. The increased local circulation of blood and lymph moistens the skin, increases collagen production, improves muscle tone to lift sagging tissue, tightens pores, brightens the eyes, and improves hormonal balance to help with acne. Bags under eyes can be reduced, jowls firmed, puffiness eliminated, droopy eyelids lifted and double chins minimized. The overall relaxing effect of the treatment also reduces stress and tension evident in the face. In addition to its anti-aging benefits, facial rejuvenation acupuncture can also improve conditions of acne, rosacea, pigmentation, eczema, and scarring. A course of 6-8 weekly treatments is recommended to achieve optimal results.
